## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-13, drawn to a laser gain device and a method, classified in class 372, subclass 70.
  - II. Claims 14-27, drawn to a laser slab housing and a method, classified in class 372, subclass 69.
2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the laser gain device could use different housing without first and second slab housing members or spacers that can accommodate the laser and other components in the device. The subcombination has separate utility such as to accommodate different laser device without having an adjustable mechanism as cited in the claim 1.
